THE MAKERS OF

ST. MARY'S BLANKETS

Sent us the following notice:

ST. MARY'S, O., November 16, 1897.
MESSRS. GEO. M. SNOOK & CO.

Kindly note that, owing to the heavy advance in wool, we will be compelled to advance the price of our Blankets after this date. The advance will average about ten (10) per cent. We could maintain low prices by lowering the quality of our Blankets. THIS WE WILL NOT DO. "The best selling Blankets for the money" will continue to be our motto. Thanking you for past favors and awaiting your further orders, we beg to remain,

Very truly yours,

AND STILL IT GROWS

Aetna Standard Closes a Deal for the Leasing of the

JEFFERSON IRON WORKS PLANT

AT STEUBENVILLE, WHICH WILL BE OPERATED IN CONNECTION WITH THE JUNCTION FINISHING MILLS AT MINGO, WHICH WERE RECENTLY PURCHASED BY THE BIG AETNAVILLE CONCERN—THE LEASE MAY RESULT IN A PURCHASE SOON.

A deal was completed yesterday by which the Aetna-Standard Iron & Steel Company has made another addition to its already enormous iron and steel making enterprise.

For some time negotiations have been pending between the management of the big Aetna-Standard concern and the receiver of the Jefferson Iron Works at Steubenville, the latter representing the stockholders of the Jefferson, for the acquisition of the Jefferson furnace by the Aetna-Standard. For a time it was thought the negotiations would be without result, especially as some of the stockholders of the Jefferson had sprung a scheme for the infusion of outside capital into the concern and its reorganization and rescue from the hands of the receiver, but yesterday the representatives of the two ends of the deal came to an understanding, and the result is that the Aetna-Standard leases the Jefferson blast furnace plant from the receiver, acting for the stockholders. The lease begins as soon as the transfer can be accomplished, and continues until January 1, 1899. The terms of the deal could not be learned last night, but it can be stated authoritatively that it is on a royalty basis, the amount of compensation received by the Jefferson stockholders being fixed by the production of the furnace during its operation by the Aetna-Standard.

The Aetna-Standard's acquisition of the Jefferson has been brought about by its recent amalgamation—or gobbling up—of the Junction Iron Company's plant at Mingo Junction, just below Steubenville. The Jefferson's output of iron will be used in the finishing departments at the Junction works. If at the end of the lease just entered into, the Aetna-Standard finds that the two concerns work well in double harness it is considered likely that it will purchase the Jefferson plant outright.

The deal just related, of course, ends for the present at least the plan of some of the Jefferson's stockholders to introduce outside capital and lift the plant from the hands of the receiver into which it fell some time ago. Persons acquainted with the tendency toward centralization that characterizes the iron and steel industry say it is not likely that the reorganization would have gone through to success. There are several reasons for this belief, the principal of which is the fact that a furnace without finishing mills is at a tremendous disadvantage in the contest for business in the iron trade. By the working together of the Jefferson and Junction plants this disadvantage is overcome.

OVERCOAT THEFTS.

A "Dummy" in Front of a Clothing Store Suffers—Two Thieves Caught.

With the approach of winter the overcoat thief advances to the front of the stage. One of the fraternity who has just emerged from the penitentiary regretted that he was compelled to don an overcoat and will regret more this morning, when before Squire Rogers, he explains why he took one belonging to a colored man named Granger. Mrs. Jennie Granger had the thief, who gave his name as Harry Smith, arrested. He is also colored.

Mr. Morris, the second-hand man, is quite a thief-catcher. Recently he nabbed a burglar leaving his premises, and Saturday night his springing abilities enabled him to overtake Bruce Shafer, who swiped a mackintosh from the "dummy" in front of Morris' store. The clothing man caught him at the upper house, and Squire Rogers committed Shafer to the county jail for thirty days.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has Lame Back and Weak Kidneys, Malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as stimulant to the Liver and Kidneys, is a blood purifier and nerve tonic. It cures Constipation, Headache, Fainting Spells, Sleeplessness and Melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at Logan Drug Co.'s drug store.

IN cases where dandruff, scalp diseases, falling and grayness of the hair appear, do not neglect them, but apply a proper remedy and tonic like Hall's Hair Renewer.

A Tale of the Western Insurrection of 1794 ("The Whisky Rebellion") BY HENRY C. MCCOOK.

In this romance is pictured the life of the Scotch-Irish pioneers during the close of the 18th century. The scene is necessarily laid in Western Pennsylvania, and the book has a local flavor that will commend it to the citizens of the Panhandle of West Virginia, which is geographically a part of Pennsylvania. The book has already reached its second thousand, though published but a few weeks. Bound attractively in linen cloth, good type and paper. Price \$1.50, postpaid.
